## BIO NUTRITION ... HEALTH, SAFETY AND PURITY

Being only recently introduced to agricultural production, Florida avoided the centuries of over-farming and soil depletion, as well as, decades of chemical contamination.

The uncontaminated soil of Florida, the optimal climatic conditions and the geographical location of our sunshine state, represents an ideal tropical fruit region of unsuppressed biologically and metabolically safe produce.

Associated with a scientific and strictly monitored agriculture, our state exceeds any other tropical fruit region in the world.

Based on study group activities of the **NUTRIONOMICS**, the **TMF** strives to introduce to the public in other parts of the world, our tropical building blocks for the 21st century healthy way of life ... the **BIO-NUTRITION**.

The regular and daily consumption of quality fruits is absolutely essential for an **OPTIMAL METABOLISM** and no other fruits can be better than our tropical fruits... the **FLORIDA TROPICAL FRUITS**.
